Simply 'copy' and 'paste' the template into a new email.

#EMAIL TWO: Half way through to my target

Subject: I'm halfway in making kids smile

Hi,

As you already know, this August, my hooman and I are taking part in PAWS FOR SICK KIDS and making kids smile.

The great news is that I am halfway to reach my target, but I need your hooman's support to help me reach my target.

Why am I doing this? Ronald McDonald House Charities Sydney gives seriously ill children the best gift of all – their families. The House is a warm and supportive home-away-from-home for families of children travelling to Randwick for treatment at the Sydney Children's Hospital.

The challenge will be tough for my hooman, but it's nothing compared to what these brave kids face every day of their lives and their families.

Kids should be living life, NOT fighting for it.

So my hooman and I are doing the <Easy Pawsy/Pawfessional/My own> challenge to make sick kids smile. Did you know it costs \$160 per night to support a family at RMHC Sydney. My goal is to raise \$X (or X nights)

Please support me by making a donation through my fundraising page:

<Your fundraising page link>

All funds raised will support Ronald McDonald House Charities Sydney to continue their work in supporting sick kids and their families by providing a home away from home.

Thank you hooman for your support in making kids smile.
